RAISING CONSUMPTION EFFORT STRATEGYThe idea that morality (ethicality) can have a considerable impact upon the consumption. Hence, I think business moral performance is needed to satisfy every buyer's decision of consumption and it is linked to the ethnographic research growing literature on ethical consumer behavior. Within psychology, for instance, morality can be seen as a process of cognitive learning where systematic punishment and reward help to educate individuals of their actions. Whether consumption is informed by at least some of the available moral perspectives to some of the available moral perspectives, so it caused ethical issues that are raised by ethnographic research. Ethical consumption is concerned with predicting market behavior, it included some kind of relationship between the attitudes, values and behaviors of a defined ethical consumer group. For example, ethnographic researchers have been interested in the effects of environmental concern on environmentally friendly consumer behavior. Depending on how ethical consumption is defined, it recognizes alternative forms of what are essentially moral values, attitudes and buyer individual behavior. Consumer behavior has been changed by external elements, such as economy, technology, cultures, religion etc. factors. It would be unfortunate to be great importance for an understanding of ethical consumption issues.In conclusion, consumption behavior is the art of need for desire to, it could be thought of as directly influenced by certain core values held as sacred within society. For example, ethical buyer behavior may concerns about animal protection, environmental protection, human protection etc. life rights issue. Facts, knowledge and truth about morality in consumption are seen as being raised by ethnographic research. According, the relationship between morality and consumers behavior could be better through of as the products of a continued process of political, social, technological and...
